

# Hi Tech: The Fast Lane to EZ Street

This one is for the TEAM! Does your Team “Buy In” to the office technology? Ask your team to take the Fast Lane to the Easy Street of Dental Technology.

As a team, we will dig deep into Practice Management Programs and how they affect us. Let’s spend a few of hours together to examine and discuss the latest and greatest technology on the market. We will look at dental hardware as well as office and administrative technology and software. Increase the knowledge of the entire team to have a truly Hi Tech office.
